Smoke Alarms

A smoke alarm is the single most important thing you can have to increase your chances of surviving a house fire. Only WORKING smoke alarms save lives!

Risk of death in reported home fires is halved in homes with smoke detectors.
85% *of U.S. fire deaths occur in homes.*
One home fire occurs every **85** *seconds in the U.S.*

EVERY 10 YEARS:
ALL smoke alarms should be replaced every 10 years.
NO EXCEPTIONS!

CITY O F DOTHAN RESIDENTS
CALL 615-FIRE (3473) for a free smoke alarm installation.

USE ONLY
UL approved alarms and install them in every sleeping room and outside sleeping areas on **EVERY** level of your home.

If possible, have your alarms interconnected by a licensed electrician for best protection.

EVERY MONTH:
Test your smoke alarms by pressing the button and listening for the **BEEP!**
